Eating Disorder Guidelines for Practitioners

You cannot tell by looking at someone if they have an eating disorder. Eating disorders come in all body shapes and sizes.

PHYSICAL EXAM

- Full physical
- Weigh backwards (blind weight) on a consistent scale
- Oral temperature

- Supine & standing heart rate/blood pressure
- Respiratory rate
 - Check hands/feet for swelling & color

LABORATORY TESTS

- CBC w/diff
- EKG
- Urinalysis; specific gravity, sodium
- CMP w/magnesium and phosphorus
- Vitamin D
- Full thyroid panel

- POC glucose finger stick
- DXA Scan (as needed)
- Echocardiogram (as needed)
- Estradiol level (testosterone in males)
- LH, FSH, prolactin

REVIEW OF SYMPTOMS

Anorexia Nervosa

- Weight loss
- Distorted body image
- Dizziness/Fatigue
- Pale/yellowish skin
- Cold intolerance
- Dysphagia
- Gastroparesis
- Heart rate abnormalities
- Constipation
- Fragility fractures
- Loss/delay of menses
- Depression/Anxiety
- Self-injury

Bulimia Nervosa

- Bingeing and purging
- Abdominal pain
- Heartburn/reflux
- Seizures
- Swelling after purging ceases
- Sore throat
- Abuse of laxatives, diet pills, and/or diuretics
- Self-injury
- Depression/Anxiety
- Feelings of shame and guilt

Binge Eating Disorder

- Loss of control over food intake
- No purging behaviors
- Weight fluctuations
- Eating large amounts of food when not feeling physically hungry
- Eating much more rapidly than normal
- Self medicates w/food
- Secretive eating
- Depression/Anxiety
- Feelings of shame and guilt

PHYSICAL FINDINGS

Anorexia Nervosa

- Reduced body weight
- Hypotension
- Bradycardia
- MVP
- Hypothermia
- Hypoglycemia
- Amenorrhea
- Hair loss (scalp)/ Lanugo Hair (body)
- Edems
- Cyanotic extremities
- Pressure Sores

Bulimia Nervosa

- Average or higher body weight
- Edema
- Dehydration
- Cardiac arrhythmia
- Russell's sign
- Dental erosions
- Swollen salivary glands
- Esophagitis
- Mallory-Weiss tears
- Boerhaave Syndrome
- Rectal prolapse

Binge Eating Disorder

- Higher body weight
- Gallbladder disease
- Hypertension
- Hypercholesterolemia
- Heart disease
- Type II Diabetes
- Osteoarthritis
- Sleep apnea
- PCOS
- Kidney problems
- Certain cancers

EATING DISORDERS DSM-5 DIAGNOSTIC CRITERIA

Anorexia Nervosa - 307.1

- Restriction of energy intake relative to the requirements leading to a significantly low body weight
- Intense fear of gaining weight
- Body image disturbances or denial of seriousness of low weight

Two types: Restricting type (F50.01) and Binge eating/purging type (F50.02)

Bulimia Nervosa - 307.51 (F50.2)

- Recurrent binge episodes (large amount w/loss of control)
- Recurrent use of inappropriate behaviors to prevent weight gain (vomiting, laxatives, exercise, diet pills, fasting, water overloading)
- Both bingeing and purging occur, on average, 1x weekly for 3 months or more
- Does not meet criteria for anorexia

Binge-Eating Disorder- 307.51 (F50.8)

- Recurrent binge episodes of at least 1x a week for 3 months
- Lack of control over eating during the binge episode
- Marked physical and emotional distress regarding binge eating
- Binge eating is not associated with use of inappropriate compensatory behavior
- Binge eating may alternate with dietary restriction

Avoidant/Restrictive Food Intake Disorder- 307.59 (F50.8)

- Eating/feeding disturbance as manifested by persistent failure to meet appropriate nutritional and/or energy needs
- Not better explained by lack of available food or culturally sanctioned practice
- No evidence of a disturbance in the way body weight or shape is experienced
- Not attributable to a concurrent medical condition or another mental disorder

Other Specified Feeding or Eating Disorders- 307.59 (F50.8)

<u>Significant eating disorder</u> that does not meet above criteria including Atypical Anorexia*
(despite weight loss, weight remains within/above normal range), Bulimia Nervosa (of low frequency and/or limited duration), Binge Eating Disorder (of low frequency and/or limited duration), Purging Disorder, and Night Eating Syndrome.

*Studies show equally severe medical complications of Atypical Anorexia Nervosa as Anorexia Nervosa.

SCREENING QUESTIONS

- When/What did you last eat? What about yesterday? (24hr food/fluid intake)
- How often do you weigh yourself? Have you lost or gained weight within the last 3 months? What has your weight range been?
- Do you make yourself sick (i.e. purge) when you feel uncomfortably full? (ask about vomiting, laxatives, diet pills, diuretics, medications, etc)
- Do you binge? What constitutes a binge for you?
- Do you worry you have lost control over how much you eat?
- Would you say that food dominates your life? Do you have forbidden foods?
- What is your exercise regimen?
